MASTERCLASS OCEAN PLASTIC POLLUTION

Why is plastic so detrimental to the ocean? What are microplastics? Can we collect back waste once it is off the coast? What are the alternatives to plastics? Thanks to this **interactive** webinar, raise awareness among your employees of the topic of plastic pollution and test their knowledge via a quiz.

- **Content** : *What is Surfrider? Causes & consequences of marine litter, plastic fakes out, interactive quizz to test knowledge, and how to apply solutions*
- Tools : Zoom / Teams, Klaxoon or Kahoot
- Duration : **around 1h30 (flexible)**
- **Up to 300 pers**

- **Optional** - Creative part on Klaxoon (1h30) : connected workshops by small groups, to reflect on environmental issues (company-specific or not) thanks to collective intelligence tools.
 - Prices on request
 - From 5 to 20 people for 1 to 3 facilitators

OCEAN AND CLIMATE CHANGE MASTERCLASS

Did you know that the ocean is Earth's "blue lung", or the 1st carbon sink, before forests? Do you know about the ocean conveyor belt? Or do you know why coral reefs are bleaching or lobsters are migrating north?

This webinar will allow you to understand and analyze **the interdependence links between the ocean and our human societies** through the different impacts of climate change.

- **Content explained in a fun and understandable way with concrete examples:**
 - *consequences of the rise in temperatures on ecosystems and on the oceanic balance.*
 - *Influence (biological, social and political) of these changes on life on earth.*
 - *collective reflection on the different levers of engagement*
- Use of Zoom / Teams, and quiz on Kahoot
- Duration: **approx. 1h30 adaptable**
- **Up to 300 people**
