BEACH OR RIVERBANK CLEANUP

Slip-on gloves and comfortable clothes to tackle marine litter pollution firsthand.

Several formats available:

"Classic"

"Olympiads" (games and challenges in teams)

"Plogging" (running with cleanup)

"Kids' awareness day" (family format on weekends with employees' children)

[More information on cleanups here.](#)

KAYAK CLEANUP

Paddle along a river to discover the course of marine litter polluting our environment as it travels from inland to the ocean.

Optional: Discovery of the "**Plastic Origins**" application which uses artificial intelligence to identify macro-plastic waste in rivers, and thus better understand the context of waste pollution.

DO IT YOURSELF WORKSHOP

Become a « zero waste » pioneer as you learn how to create your own cosmetics and household products.

Exemple of products available: *Exfoliating soap, Solid shampoo, Lip balm, Toothpaste powder, Deodorant, Laundry, Dishwashing Liquid, Beewraps.*

[More information on "Do it yourself" workshops here.](#)

CLIMATE COLLAGE

OCEAN COLLAGE

WASTE COLLAGE

Three **fun, scientific and creative workshops**.

One to understand climate change and its consequences, the second one focused on the role of the ocean, and the third one to understand everything about waste and its treatment.

Try this collaborative game, build your climate collage with cards and leave with some concrete ideas to make things change!

In collaboration with the Ocean Collage and the Climate Collage associations.

CREATIVE & UPCYCLING COLLAGE

Unite your collaborators by the realization of a common fresco, from plants or waste collected in the offices of the company (paper, leaflets, samples), and free collective creativity.

You will give a second life to your office waste and create a sustainable common work, which illustrates your values or your logo.

Your choice: plant collage, origami, string art, etc.

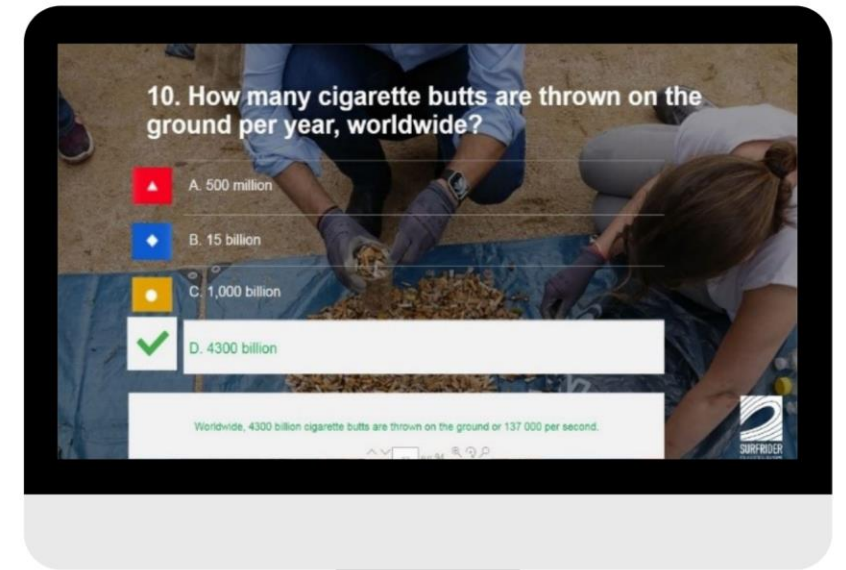

In collaboration with **Happy Makers**

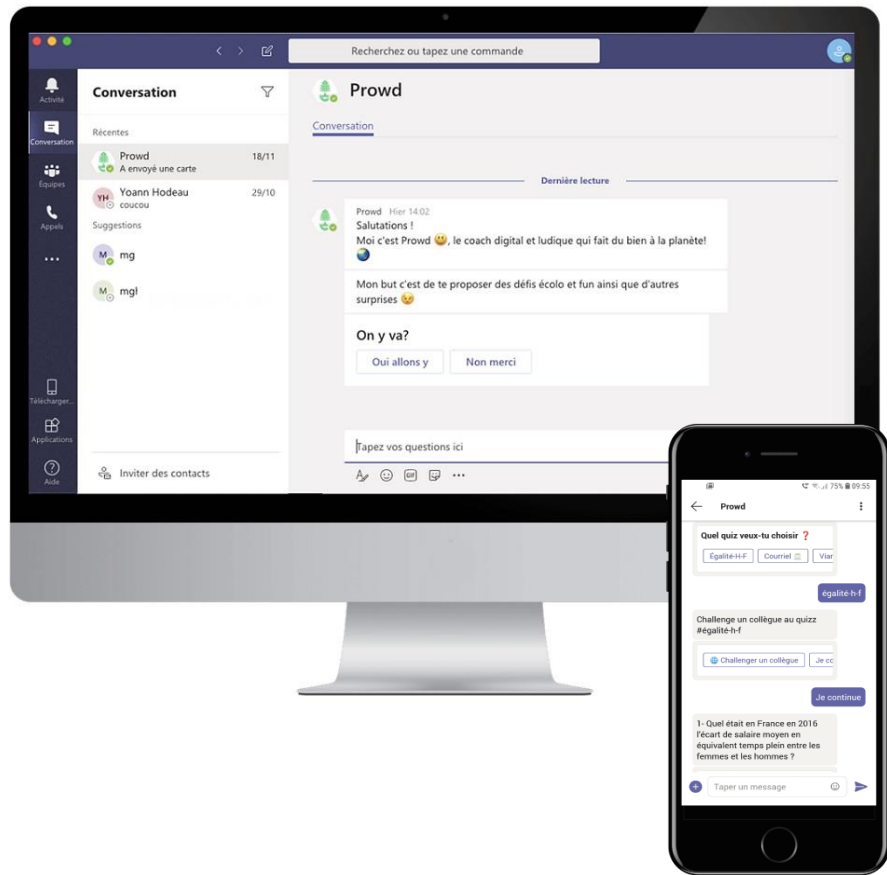

MASTERCLASS AND CONFERENCES

- **Marine litter Masterclass:** An interactive webinar to raise awareness about ocean plastic pollution and find alternatives to waste.
- **Ocean and Climate Change Masterclass:** An interactive webinar to discover the importance of the ocean in climate regulation and on the threats the ocean is facing.
- The Masterclasses can be followed by a **creative workshop of 1 hour 30min on eco-gestures to adopt at the office or at the company** (up to 20 people)
- **"Diving in the Ocean" digital immersive experience - available soon in 2022.**
- Conference format on request.

[More information on our digital offer here.](#)

OCEAN CHALLENGE

Mobilize your employees around the Ocean Challenge, **an online challenge of 1 to 4 weeks** directly **available on your work tool** (Teams, Slack, Google Chat).

Every day, the chatbot developed by Prowd (SSE company), gives you the keys to be able to engage in the office or remotely, with **challenges** to adopt eco-gestures and many **quizzes** to inform yourself while having fun.

- ✓ An encouraging digital coach
- ✓ Fun content
- ✓ Ranking alone and / or in a team

THEY ALREADY TRUST US

« **Sogeti** is very happy to have launched in 2018 a partnership with Surfrider. It reflects our real commitment for the environment. 400 Sogeti's employees and their families have swung into action all around France. These events allowed us to rally and federate our teams towards common values and a cause that we all care about. »

ERIC DE QUATREBARBES

Executive Director Sogeti France

"The **Ocean Challenge** Prowd x Surfrider, a collaboration that makes sense in favor of a greater environmental impact!

Prowd's digital ingenuity disseminates Surfrider's expert content. With the commitment to combine news / quiz / challenge and masterclass, EPSA employees were able to awaken, raise awareness and take action for 3 weeks.

In the format of a "challenge" and with the appropriate gamification, individually or as a team, everyone has been able, as summer approaches, to become more aware citizens of the importance of the oceans and their preservation. "

CEDRIC LAROYENNE
EPSA Group

« These events are an excellent way to raise awareness about marine litter directly on the field, mixing fun and practical. Impactful and unifying moments for the employees. »
